Report on World Computer Literacy Day – 2013.

Like Every year this year also the 'World Computer Literacy Day' was celebrated at the Institution of Engineers (India) , Jharkhand State Centre, at Engineer Bhawan, on 1st. December 2013.

The programme started at 6.00 p.m. by welcoming the Chief Guest Er.S. S. Torka, Director-(Engineering), MECON Ltd., and Guest of Honour Er. Anurag Gupta, IG – Jharkhand Police, Govt. of Jharkhand. The dignitaries were welcomed with flower bouquets by students of JVM school. The welcome address was delivered by Er. A.K. Saxena, Council Member & Past Chairman of IE(I), JSC. In his welcome address, he gave his views on importance of computer Education among the school going children and how the computer is useful in our day to day life.

After the welcome address, inaugural lamp was lighted by all the dignitaries. The convener invited the Chief Guest Er. S. S. Torka, Director-Engineering, MECON Ltd., In his address, he delivered a lecture on application of Computer in the field of Engineering and how the usage of computer is becoming indispensible in the field of engineering. Current trend is based on Computer as application of computer is essential in every field. Without the use of computer, no development work can progress. The growth of every industry and eco-mic activities are dependable on computer. So, it is very essential to let everybody make aware of computer, its benefits and vitality in our daily lives. He invited everybody to be computer savvy so that one can be made fit to match with pace of development.

Then the convener Er. M.T. Pandian, requested the Guest of Honour Er. Anurag Gupta to speak a few words of computer Literacy. In his lecture, he first of all praised the Institution to invite him as a Guest of Honour on this occasion. Though he is ma from the Police deptt. but as to- day's activities of this department has expanded a lot and he told his experience in nabbing criminals with the help of computer network adopted by the Police department. Now a day's, in every field application of computer has made it easy to detect and solve various problems. He gave instances of Cyber Crimes which he could solve with the help of Computer application. Now days it is observed that in every field, application of computer is essential to cope up with situation. So, it is essential an Computer Learning is essential to deal with any sort of problem faced by us in our daily activities.

After the lecture by Guest of Honour, the Convener presented a brief on how the Literacy of computer is becoming must in our day to day activities. In the near future we will be

totally dependent on computer as total system will be based on computer and we have to be computer savvy without the knowledge of even basic knowledge our day to day life will get affected. So, it is becoming compulsory in every educational institution to give computer education as one main subject in their course.

Then the convener, conducted a Quiz Programme on Computer Literacy related questions. Children & Ladies participated in the quiz and various question related to computer were asked and prizes were given to those, who could give the correct answers.

Lastly, the Vote of Thanks was given by the Hony. Secretary, thanking the dignitaries and who attended the event to make it a grand success. He also invited all for the light refreshment arranged at the Institution premises.
